IT DOESN’T GET ANY BETTER
We at Innovative Bowling Products and VISE are excited to announce the joint venture of two world class bowling companies. With over 70 years of combined expertise, we are recognized as industry leaders in every market segment in which we do business.

As a company we have the greatest employees the bowling industry has to offer, and we do our best to achieve unparalleled customer service and satisfaction, while supporting our customers and products with the best warranties in the bowling industry. With the demand for perfection, every product we manufacture and support is made from the highest quality materials and craftsmanship available today, resulting in outstanding performance that is quantifiable. We are extremely honored that our products are utilized by more Pro Shops and bowlers than any other product in the bowling industry today, which is why we are “THE CHOICE OF CHAMPIONS”.

To all of our customers, associates and staff members, we thank you for the success we have enjoyed so far. We look forward to developing new products and innovations as we grow in the years to come.

Please see the incredible story featured in our catalog of how bowlers continue to amaze us with unselfish acts of kindness and giving. This makes us all proud to be a part of the greatest sport on earth. It doesn't get any better.

Interchangeable Finger

**If Starter Kit Contents**

1. Display Unit
2. 120 Inserts
3. Router Bit & Drill Adapter
4. Needle Nose Pliers
5. Instructions for both Standard & Pitched Installations

The Insert’s unique design features locking tabs that simply pop in and out of the ball with no glue required! They’re so easy to use, you can even change inserts during any bowling competition.

The VISE Interchangeable Finger is Available in Sizes 2-9, Including Half Sizes.

Now available in 8 additional colors.
The following was calculated using a 15/16" thumb & 3/4" finger inserts

**BALL #1**
- **CUT-TO-CUT 3-5/8"**
  - A = 4"
  - B = 4 - 1/8"
  - C = 4 - 1/4"

**BALL #2**
- **CUT-TO-CUT 4"**
  - A = 4 - 3/8"
  - B = 4 - 1/2"
  - C = 4 - 5/8"

**BALL #3**
- **CUT-TO-CUT 4-3/8"**
  - A = 4 - 3/4"
  - B = 4 - 7/8"
  - C = 5"

---

“My success came from dedication and hard work, and being exposed to the greatest products. Their intuitive minds and outside the box thinking has revolutionized the bowling industry. I am VISE!” - Kelly Kulick

Tommy Jones

“The IT enables me to compete all over the world in all different climates and allows me to maintain the same feel in every ball.”
Dirt never reaches the vacuum, allowing your vacuum to run at maximum efficiency all the time.

The high capacity catch can and custom designed filtration bag will reduce frequent emptying of the system.

PVC pipe design allows for multiple vacuum lines throughout your shop, allowing you to vacuum from any work station in your Pro Shop at any time.

Specially designed V.V.S. accessories, including the Ventilation Hood and Drill Shield, help to minimize airborne dust when bevel sanding or drilling a ball.

Call now and ask about getting a customized V.V.S. layout for your Pro Shop!

NEW FOR 2014 - 2015
LESLIE BOHN

2014 BOWLER OF THE YEAR
Leslie Bohn “Delivers” Ultimate Gift of Love

by Jerry Schneider

Exactly one month after the PBA honored Hall of Famer Parker Bohn III for his extraordinary community service, Bohn's wife Leslie delivered an even more significant gift. Literally. On Feb. 14 – Valentine's Day, Leslie Bohn gave birth to Christian Leslie Forry, a healthy nine-pound, four-ounce, 20-inch-long baby boy. Yes, the name is correct. The baby doesn't belong to the Bohns. The child's parents are Chris and Janine Forry. Because Leslie Bohn agreed to be the surrogate, with husband Parker's blessings, the Forrys have the child they have always wanted. It's an extraordinary story of how bowling brought two families together in a very special way.

Chris Forry, a former PBA member, owns Buddies Pro Shop in Fairfield, Conn. His wife Janine is a special needs teacher and former collegiate bowler. They had been trying to have a baby for several years, but learned Janine is unable to give birth naturally. Back in 2009, Chris Forry was bowling in the U.S. Open at Carolier Lanes in North Brunswick, N.J. – not far from the Bohns' home in Jackson – and he was commuting back-and-forth to Connecticut during the tournament because Janine was having in vitro procedures performed in hopes of eventually having their first child. “I was getting ready to head back home to Connecticut and I bumped into Parker and Leslie, and I told them Janine was having an in vitro procedure early the next morning,” Forry said. “Leslie mentioned she had considered being a surrogate to help another family member have a child. At the time I didn’t think much of that conversation because I thought the in vitro process would eventually be successful.”

Three years later and several more unsuccessful procedures later, another chance meeting took place. Parker, now working for Brunswick as a bowling ball sales rep, made a visit to Forry’s pro shop where the conversation again turned to family. “I asked Parker about his family and he asked about mine, thinking that by this time the in vitro efforts were successful,” Chris said. “I hated to tell him that unfortunately our efforts weren’t successful and it looked like we wouldn’t be able to have any children. That’s when Parker suggested I give Leslie a call. “When Parker got home he told Leslie to expect a call from me. I can only imagine what Leslie thought of Parker volunteering her to even consider it,” he continued. “It took me a few days to work up the nerve to call Leslie but I finally did. When I called, Leslie mentioned Parker had told her I might call, but she wanted to give it some more thought.” Leslie wasn’t immediately taken by the idea, but it didn’t take her long to consider the possibilities. “I was originally thinking more of helping a relative who might not be able to have a child and not necessarily someone outside of our family,” Leslie Bohn said. “Plus our family situation had changed. (Carrying someone else’s child) really wasn’t on my bucket list, but after talking it through with Parker and thinking more about the opportunity to give a couple something as wonderful as what we have, we made the decision to go ahead.”

That’s when the process began in earnest. The Forrys came to visit the Bohns (Janine had never met Parker and Leslie). They discussed the details Leslie needed to know about the surrogacy process. It was a life-changing process for everyone concerned. There were the legal issues, medical and psychiatric testing, and, maybe most important, discussions with their own families. Leslie and Parker wanted their three children – sons Justin, 10, Brandon, 9, and daughter Sydney, 8 – involved in the decision process. Parker also has two children from a previous marriage. “We didn’t have to do too much convincing of Justin and Brandon, but we had a little explaining to do with Sydney,” Leslie said. “We just explained to her that we were able to give a family something wonderful like we had and I think she understood that.”

In June of 2013, the Forrys received the call they had dreamed of: Leslie informed them she was pregnant. Leslie said the pregnancy was normal. She was even able to continue bowling competitively until shortly before the delivery. “All we could think of during the pregnancy was the excitement and what we were bringing this couple was priceless,” Leslie said. “All we could think of was how happy we were to be part of helping another family have what we have.”

On Valentine’s Day – one month after Parker had been named recipient of the inaugural PBA Tony Reyes Award for his unselfish community service - Leslie exceeded him, delivering the ultimate gift of love. “Valentine’s Day will never be the same,” Janine Forry said. “The whole nine months has brought tears to my eyes. Parker and Leslie have made it so special. It’s been a privilege to know them. A special bond has formed between us and now we’re an extended family.” It was equally special for Leslie and Parker Bohn.

“It was the greatest gift of love you could imagine on Valentine’s Day,” Parker said. “Giving two people the pleasure of being a mom and dad is something you have to experience to appreciate. “I’ve experienced a lot of things, on and off the lanes, but I know that having children and a family far exceeds anything else I’ve ever done.”
VISE Continues to spot young talent and adds Christian Leslie Forry to its Staff.

Innovative Measuring Ball
INN-MB-1000

Innovative’s Measuring Ball is affordable, highly functional, and designed to complement our fine line of Pro Shop products. It is unequalled when it comes to simplicity and accuracy.

The span is measured by placing the thumb in a spring-loaded cavity and placing the hand over a span grid. On the other side of the grid is another spring-loaded cavity, which measures the angle of the thumb oval. Around the diameter of the ball is a complete range of 40 finger and thumb hole sizes.

FAST, ACCURATE AND EASY TO USE!
• Accurately measures finger and thumb sizes, grip span, and angle of thumb oval.
• Spring mechanism pushes thumb to the front edge of the thumb cavity for edge to edge measurement.
• Another thumb cavity has two springs that center the thumb for reading the angle of the thumb oval.
• Span measurement to 1/16th of an inch.
• Custom plastic molded span grid is laminated onto the surface of the ball.
• Made from sturdy and attractive reactive resin bowling ball cover stock.
• Ball has a special hollow core so that the holes don’t meet under the surface.
• 40 finger and thumb sizes drilled around the diameter of the ball.
• High quality bowling ball finish for an unmatched professional look.
• Another precision engineered product from Innovative Bowling Products.

OIL EXTRACTION & RESURFACING

INCREASE PROFITS. REMOVE OIL WITH CONFIDENCE. IMPROVE BALL PERFORMANCE.

Revivor Oil Extraction Unit

- Processes 2 balls at a time.
- Restores ball performance.
- Heat draws the oil from the bowling balls.
- Forced air circulates the heat evenly.
- Electronic controller assures constant temperature.

- Balls continually rotate during the process.
- Sorbent pads collect the oil as the balls turn.
- 10 years of field testing has never harmed a ball.
- 2 hour timer allows you to walk away.

Innovative has designed this unit to extract oil from reactive and proactive bowling ball cover stocks. Drawing out the oil by use of thermal reaction is a proven method of bringing back the original characteristics of the ball. The Revivor removes the oil with an even, digitally controlled heat pattern so as not to damage the bowling ball. Balls should have the oil extracted approximately every 40 to 50 games, depending on the lane conditions and the level of performance each bowler wishes to maintain.

Put the Revivor to work in your pro shop and start earning $40 to $50 per hour while providing a much needed service for your customers. The Revivor is an easy-to-use, self-contained unit. Best of all, it's from Innovative and that means advanced technology at work for you.

HAUS PARTS & ACCESSORIES

HAUS RESURFACING SYSTEM BY INNOVATIVE

After just 30 or 40 games of bowling, your ball will lose consistent cover reaction! The next generation Haus Resurfacing System is the finest, most accurate way to return your ball back to its original specs. Regular resurfacing with the HRS can:

- Improve your game.
- Lengthen your ball’s life.
- Assure you of resurfacing consistency.

Haus Resurfacer

1003-1

Innovative has designed this system to resurface your balls. Resurfacing should be done at regular intervals, typically every 30 to 50 games. Regular resurfacing with the HRS can:

- Improve your game.
- Lengthen your ball’s life.
- Assure you of resurfacing consistency.
Innovative Bowling Products Policies

Returns: No returns accepted without prior consent. Merchandise must be shipped prepaid to Innovative Bowling Products. Returns made for reasons other than defective merchandise or Innovative Bowling Products error will be charged a 15% restocking fee.

Delivery: Every attempt is made to ship all orders the same day they are received. Warehouse staff shall have the right to ship the fastest, cheapest method possible. Unless otherwise noted, UPS & FedEx will be used within weight restrictions.

FOB: All prices are net and FOB. Terms: Our terms are prepaid. We accept for your convenience: MasterCard, Visa, Discover and American Express.

Prices: All prices are subject to change without notice and those in effect at date of shipment will apply.

Warranty

All warranties on our products are that of the manufacturer. Innovative Bowling Products agrees to repair or replace any product or part thereof, of its manufacturers, when necessary, as a result of defects in workmanship or material arising within one year from the date of purchase. This applies only to the original purchaser and must be returned to Innovative Bowling Products, prepaid, accompanied by a copy of the invoice. This warranty shall not apply to any product or components thereof which has been repaired or altered outside the factory, nor due to misuse, negligence or accident. In no event will Innovative Bowling Products be liable for any incidental or consequential damages.

WES MALOTT TEAMS WITH INNOVATIVE BOWLING PRODUCTS!

Innovative Bowling Products is proud to announce that 2009 Player of the Year Wes Malott has decided to feature our products exclusively at Strike-A-Lott Pro Shop in Austin, Texas. Wes is very passionate about the sport of bowling. He was looking for a company that shared his integrity and dedication for the game and offered the highest quality products for his soon to be high volume pro shop. After careful consideration he chose Innovative Bowling Products. Innovative Bowling Products is proud to have Wes Malott on board as a member of our team. He chose Innovative. You should too! Welcome aboard, Wes, and good luck with your new pro shop.
